Subject index

Acetonitrile
The electro-oxidation of *p*-aminodiphenylamine in acetonitrile (Pekmez et al.) 389
Activation parameters
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous first order reactions. Halide cleavage in anion radicals of chloroanthracenes (Andrieux et al.) 123
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous second order reactions. Reaction of *n*-butyl bromide with anthracene anion radicals (Andrieux et al.) 141
Adiabatic transfer
Many-electron electrochemical reactions (Karasevskii, Karnaukhov) 49
Adsorption
Adsorption of bisulfate anion on a Pt(100) electrode: a comparison with Pt(111) and Pt(poly) (Gamboa-Aldeco et al.) 451
Alkaline medium
The influence of halide ions on the corrosion and passivity of cobalt in an alkaline medium (Rehim et al.) 99
Aminodiphenylamine
The electro-oxidation of *p*-aminodiphenylamine in acetonitrile (Pekmez et al.) 389
Anistropic etching
Anisotropic etching of silicon at high pressure (Abbott et al.) 473
Anodic dissolution
The influence of halide ions on the corrosion and passivity of cobalt in an alkaline medium (Rehim et al.) 99
Anthracene
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous second order reactions. Reaction of *n*-butyl bromide with anthracene anion radicals (Andrieux et al.) 141

Biopolymers
Conformational alterations of bovine insulin adsorbed on a silver electrode (Reipa et al.) 413
Bisulfate anion
Adsorption of bisulfate anion on a Pt(100) electrode: a comparison with Pt(111) and Pt(poly) (Gamboa-Aldeco et al.) 451
Bovine insulin
Conformational alterations of bovine insulin adsorbed on a silver electrode (Reipa et al.) 413
Butyl bromide
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous second order reactions. Reaction of *n*-butyl bromide with anthracene anion radicals (Andrieux et al.) 141

Carbon dioxide reduction
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part II. Copper-modified palladium electrode (Ohkawa et al.) 459
Chloroanthracenes
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous first order reactions. Halide cleavage in anion radicals of chloroanthracenes (Andrieux et al.) 123

Cobalt
The influence of halide ions on the corrosion and passivity of cobalt in an alkaline medium (Rehim et al.) 99
Conducting polymers
One-dimensional growth model for competition between intermolecular and intramolecular propagation of the conducting zone at conducting polymers-coated electrodes (Aoki) 273
Copper dissolution
Oscillations of the EQCM frequency response in the course of open-circuit copper dissolution in aqueous solutions of H_2SO_4 and $CuSO_4$ (Inzelt) 465
Corrosion
The influence of halide ions on the corrosion and passivity of cobalt in an alkaline medium (Rehim et al.) 99
Cyclic voltammetry
Improvement and estimation of precision in cyclic voltammetry: thermodynamic and kinetic determinations in chemically reversible systems (Andrieux et al.) 107
The four-member square scheme in cyclic voltammetry: general solution for nernstian electron transfers (Balducci, Costa) 355

Desorption
Application of elimination polarography to the study of electrode processes (Trnková, Dračka) 265
Diffusion-controlled response
Monte Carlo simulation of diffusion-controlled response functions at 2D experimental rough electrodes (Trigueros et al.) 221
Diffusion current elimination
Application of elimination polarography to the study of electrode processes (Trnková, Dračka) 265
Dimethylformamide
Electrochemical behaviour of 1,2-dihydroxycyclobuten-3,4-dione in dimethyl formamide (Farnia et al.) 339

Electroactive chelating ligands
Complexes of Cu(II) with electroactive chelating ligands adsorbed on graphite electrodes: Surface coordination chemistry and electrocatalysis (Zhang, Anson) 81
Electroadsorption
Conformational alterations of bovine insulin adsorbed on a silver electrode (Reipa et al.) 413
Electrochemical characterization
Electrochemical detection and characterization at $Pt(n,n,n-2)$ oriented electrodes of multiatomic step formation induced by quenching at high temperatures (Clavilier, Rodes) 247
Electrochemical detection
Electrochemical detection and characterization at $Pt(n,n,n-2)$ oriented electrodes of multiatomic step formation induced by quenching at high temperatures (Clavilier, Rodes) 247
Electrochemical reduction
Preparation of $LaFeO_3$ perovskite film using electrochemical reduction (Matsumoto, Hombo) 441
Electrochemical study
Electrochemical behaviour of 1,2-dihydroxycyclobuten-3,4-dione in dimethyl formamide (Farnia et al.) 339
Electrode coating
Investigation of $Ru(bpy)_3^{2+}$/Nafion® film coated on electrodes studied using in situ spectrocyclic voltammetry and photoluminescence (Lin et al.) 189
Electrode processes
Application of elimination polarography to the study of electrode processes (Trnková, Dračka) 265
Electrode surface
A simple model for micellization and micelle transformations on electrode surfaces (Nikitas) 59
Electrogenerated chemiluminescence
Electrochemical generation of excited twisted intramolecular charge transfer states. Part VI: 9,9′-bianthryl and 10,10′-dimethoxy-9,9′-bianthryl (Kapturkiewicz) 283
Electropolymerisation
Electropolymerisation of novel conducting poly(3-trimethylsilylthiophen) (Adebimpe et al.) 447
Elimination polarography
Application of elimination polarography to the study of electrode processes (Trnková, Dračka) 265
EQCM
Oscillations of the EQCM frequency response in the course of open-circuit copper dissolution in aqueous solutions of H_2SO_4 and $CuSO_4$ (Inzelt) 465

Fast cyclic voltammetry
Investigation of the cleanliness of Pt in acidic formic acid solution by the technique of modulated potential–time waveforms (Lei et al.) 201
Four-member square scheme
The four-member square scheme in cyclic voltammetry: general solution for nernstian electron transfers (Balducci, Costa) 355
Fractal measures
Monte Carlo simulation of diffusion-controlled response functions at 2D experimental rough electrodes (Trigueros et al.) 221

Glassy carbon electrode
Redox thermodynamics of cytochrome *c* at the bare glassy carbon electrode (Chi, Dong) 377
Glucose oxidase
Polymeric redox mediator enzyme electrodes for anaerobic glucose monitoring (Chen et al.) 317
Graphite electrodes
Complexes of Cu(II) with electroactive chelating ligands adsorbed on graphite electrodes: Surface coordination chemistry and electrocatalysis (Zhang, Anson) 81

Horse heart cytochrome c
Redox thermodynamics of cytochrome *c* at the bare glassy carbon electrode (Chi, Dong) 377
Hydrogen-storing materials
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part II. Copper-modified palladium electrode (Ohkawa et al.) 459

Impedance spectroscopy
Impedance spectroscopy of lithium electrodes. Part 1. General behavior in propylene carbonate solutions and the correlation to surface chemistry and cycling efficiency (Aurbach, Zaban) 155
Indigo-carmine
Indigo-carmine-modified polypyrrole film electrode (Li, Dong) 181
Inherent conducting polymers
Electropolymerisation of novel conducting poly(3-trimethylsilylthiophen) (Adebimpe et al.) 447
Intermolecular propagation
One-dimensional growth model for competition between intermolecular and intramolecular propagation of the conducting zone at conducting polymers-coated electrodes (Aoki) 273
Isoniazid
Reduction of the pyridine ring of niazid and isoniazid on mercury electrodes. Comparison with other NAD^+ model compounds (Angulo et al.) 303

Kinetic determinations
Improvement and estimation of precision in cyclic voltammetry: thermodynamic and kinetic determinations in chemically reversible systems (Andrieux et al.) 107

$LaFeO_3$ perovskite film
Preparation of $LaFeO_3$ perovskite film using electrochemical reduction (Matsumoto, Hombo) 441
Lithium electrodes
Impedance spectroscopy of lithium electrodes. Part 1. General behavior in propylene carbonate solutions and the correlation to surface chemistry and cycling efficiency (Aurbach, Zaban) 155

Many-electron electrochemical reactions
Many-electron electrochemical reactions (Karasevskii, Karnaukhov) 49
Membrane-covered oxygen sensors
Numerical simulation of the time-dependent current to membrane-covered oxygen sensors. Part II. The approach to the steady state and the response to a step change for a microcathode (Gavaghan et al.) 1
Mercury electrodes
Reduction of the pyridine ring of niazid and isoniazid on mercury electrodes. Comparison with other NAD^+ model compounds (Angulo et al.) 303
Metal dissolution
Process order on a substance participating in different rate parallel reactions (Vigdorovich, Vigdorovich) 399
Micelle transformations
A simple model for micellization and micelle transformations on electrode surfaces (Nikitas) 59

Micellization
A simple model for micellization and micelle transformations on electrode surfaces (Nikitas) 59
Microcathode
Numerical simulation of the time-dependent current to membrane-covered oxygen sensors. Part II. The approach to the steady state and the response to a step change for a microcathode (Gavaghan et al.) 1
Monte Carlo simulation
Monte Carlo simulation of diffusion-controlled response functions at 2D experimental rough electrodes (Trigueros et al.) 221

NAD^+ model compounds
Reduction of the pyridine ring of niazid and isoniazid on mercury electrodes. Comparison with other NAD^+ model compounds (Angulo et al.) 303
Nafion
Investigation of $Ru(bpy)_3^{2+}$/Nafion® film coated on electrodes studied using in situ spectrocyclic voltammetry and photoluminescence (Lin et al.) 189
In-situ spectrocyclic voltammetry investigations of the formation of a water oxidation catalyst $[(bpy)_2(H_2O)Ru-O-Ru(H_2O)(bpy)_2]^{4+}$ at a Nafion®-coated electrode (Ramaraj et al.) 367
Nernstian electron transfers
The four-member square scheme in cyclic voltammetry: general solution for nernstian electron transfers (Balducci, Costa) 355
Niazid
Reduction of the pyridine ring of niazid and isoniazid on mercury electrodes. Comparison with other NAD^+ model compounds (Angulo et al.) 303

Oscillatory behaviour
Oscillations of the EQCM frequency response in the course of open-circuit copper dissolution in aqueous solutions of H_2SO_4 and $CuSO_4$ (Inzelt) 465
Oxidation
The electro-oxidation of *p*-aminodiphenylamine in acetonitrile (Pekmez et al.) 389
Oxygen sensors
Numerical simulation of the time-dependent current to membrane-covered oxygen sensors. Part III. Use of a microcathode in pulse amperometry (Gavaghan et al.) 15

Palladium electrode
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part II. Copper-modified palladium electrode (Ohkawa et al.) 459
Parallel reactions
Process order on a substance participating in different rate parallel reactions (Vigdorovich, Vigdorovich) 399
Passivity
The influence of halide ions on the corrosion and passivity of cobalt in an alkaline medium (Rehim et al.) 99
Phenylglyoxylic acid
Application of elimination polarography to the study of electrode processes (Trnková, Dračka) 265
Photoluminescence
Investigation of $Ru(bpy)_3^{2+}$/Nafion® film coated on electrodes studied using in situ spectrocyclic voltammetry and photoluminescence (Lin et al.) 189
Platinum electrodes
Adsorption of bisulfate anion on a Pt(100) electrode: a comparison with Pt(111) and Pt(poly) (Gamboa-Aldeco et al.) 451
Platinum electroplating
Studies of platinum electroplating baths. Part II. Deposition of platinum from a solution of $Pt(H_2O)_4^{2+}$ in aqueous acid (Gregory et al.) 211
Polymer conformation
Conformational alterations of bovine insulin adsorbed on a silver electrode (Reipa et al.) 413
Polypyrrole film
Indigo-carmine-modified polypyrrole film electrode (Li, Dong) 181
Poly(vinylferrocene)
Polymeric redox mediator enzyme electrodes for anaerobic glucose monitoring (Chen et al.) 317
Potential–time waveforms
Investigation of the cleanliness of Pt in acidic formic acid solution by the technique of modulated potential–time waveforms (Lei et al.) 201
Process order
Process order on a substance participating in different rate parallel reactions (Vigdorovich, Vigdorovich) 399
Pulse polarization
Investigation of the cleanliness of Pt in acidic

formic acid solution by the technique of modulated potential–time waveforms (Lei et al.) 201

Pyridine ring reduction
Reduction of the pyridine ring of niazid and isoniazid on mercury electrodes. Comparison with other NAD^+ model compounds (Angulo et al.) 303

Quenching at high temperatures
Electrochemical detection and characterization at Pt(n,n,$n-2$) oriented electrodes of multiatomic step formation induced by quenching at high temperatures (Clavilier, Rodes) 247

Rate constants
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous first order reactions. Halide cleavage in anion radicals of chloroanthracenes (Andrieux et al.) 123
Improvement and estimation of precision in the cyclic voltammetric determination of rate constants and activation parameters of coupled homogeneous second order reactions. Reaction of n-butyl bromide with anthracene anion radicals (Andrieux et al.) 141

Redox thermodynamics
Redox thermodynamics of cytochrome c at the bare glassy carbon electrode (Chi, Dong) 377

Rough electrodes
Monte Carlo simulation of diffusion-controlled response functions at 2D experimental rough electrodes (Trigueros et al.) 221

$Ru(bpy)_3^{2+}$
Investigation of $Ru(bpy)_3^{2+}$/Nafion® film coated on electrodes studied using in situ spectrocyclic voltammetry and photoluminescence (Lin et al.) 189

$[Ru(bpy)_2(H_2O)_2]^{2+}$
In-situ spectrocyclic voltammetry investigations of the formation of a water oxidation catalyst $[(bpy)_2(H_2O)Ru-O-Ru(H_2O)(bpy)_2]^{4+}$ at a Nafion®-coated electrode (Ramaraj et al.) 367

Semi-molecular model
A simple model for micellization and micelle transformations on electrode surfaces (Nikitas) 59

Silicon
Anisotropic etching of silicon at high pressure (Abbott et al.) 473

Small system thermodynamics
A simple model for micellization and micelle transformations on electrode surfaces (Nikitas) 59

Solar energy conversion
In-situ spectrocyclic voltammetry investigations of the formation of a water oxidation catalyst $[(bpy)_2(H_2O)Ru-O-Ru(H_2O)(bpy)_2]^{4+}$ at a Nafion®-coated electrode (Ramaraj et al.) 367

Spectrocyclic voltammetry
Investigation of $Ru(bpy)_3^{2+}$/Nafion® film coated on electrodes studied using in situ spectrocyclic voltammetry and photoluminescence (Lin et al.) 189
In-situ spectrocyclic voltammetry investigations of the formation of a water oxidation catalyst $[(bpy)_2(H_2O)Ru-O-Ru(H_2O)(bpy)_2]^{4+}$ at a Nafion®-coated electrode (Ramaraj et al.) 367

Squaric acid, H_2SQ
Electrochemical behaviour of 1,2-dihydroxycyclobuten-3,4-dione in dimethyl formamide (Farnia et al.) 339

Surface coordination chemistry
Complexes of Cu(II) with electroactive chelating ligands adsorbed on graphite electrodes: Surface coordination chemistry and electrocatalysis (Zhang, Anson) 81

Surface-enhanced Raman spectroscopy
Conformational alterations of bovine insulin adsorbed on a silver electrode (Reipa et al.) 413

Thermodynamic determination
Improvement and estimation of precision in cyclic voltammetry: thermodynamic and kinetic determinations in chemically reversible systems (Andrieux et al.) 107

Time-dependent current
Numerical simulation of the time-dependent current to membrane-covered oxygen sensors. Part II. The approach to the steady state and the response to a step change for a microcathode (Gavaghan et al.) 1
Numerical simulation of the time-dependent current to membrane-covered oxygen sen-

sors. Part III. Use of a microcathode in pulse amperometry (Gavaghan et al.) 15
Trimethylsilylthiophen
Electropolymerisation of novel conducting poly(3-trimethylsilylthiophen) (Adebimpe et al.) 447
Twisted intramolecular charge transfer
Electrochemical generation of excited twisted intramolecular charge transfer states. Part VI: 9,9′-bianthryl and 10,10′-dimethoxy-9,9′-bianthryl (Kapturkiewicz) 283
Water oxidation
In-situ spectrocyclic voltammetry investigations of the formation of a water oxidation catalyst $[(bpy)_2(H_2O)Ru-O-Ru(H_2O)-(bpy)_2]^{4+}$ at a Nafion®-coated electrode (Ramaraj et al.) 367
